Demotte's Lecture Apparatus Hurried From El Dorado.

CYLINDERS SENT PAST

Superintendent Webb Ordered Out Special Engine.

When Prof. John R. DeMotte arrived here yesterday and went down to the opera house to arrange for his lecture he found that the cylinders left here in which is kept the gas burned to throw the pictures upon the canvas were empty. He had come here from Pueblo, Colo., and from there had ordered the two empties to Indianapolis and the two unused duced, pleasing to the taste and acto be sent here. Confusion of orders ceptable to the stomach, prompt in from some account got the empties here its action and truly beneficial in its and the full ones on the way to Indian- effects, prepared only from the most apoils. The cylinders came by express healthy and agreeable substances, its upon the same train carrying Dr. De many excellent qualities commend it Motte over the Missouri Pacific. When to all and have made it the most the lecturer learned that the mpty cylinders had been left here he went quickly to the station to see if he could intercept the others before the train left for the east at 2:10. The train had been gone an hour, however, and the best he could do was to telegraph for them to be taken off at El Dorado, which he did. But that didn't at first seem probable to help the situation much. There was no train and E! Dorndo is thirty-five miles away. thousand people had bought and paid for tickets to the lecture. The tubes contain oxygen and hydrogen gas and there is no apparatus for generating it in Wich-ita in quantities sufficient for the pur-The agent at El Dorado was asked to

send the cylinders back by hand-car, but there were no section men within five

Prof. De Motte appealed to Division Superintendent Webb, who ordered out an engine to make a special trip to El Dora-Mo. It was steamed up ready to go when word from the El Dorado agent announced that a band car crew would bring the

When the lecturer began at 8:40 he had care of his new ten-pound boy. brough for thirty-five minutes, or up until the time it became necessary to ffash wiews upon the curtain. The hand car Mariling of the Crawford Grand. crew pumped away and the cylinders were carried into the front way of the for Mayfield, where he will relieve the

ppern house exactly at 9:12. Prof. De Motte's lecture was a scienlife inquiry into the forces which determine character, a scientific demonstration of natural law in moral and intellectual realms. "The Python Egg and the Amer-Ican Bey" being the subject he laid down as a basis the proposition that action determines structure. After a sleep the cells of the brain are changed. They are the Former size and in action demand a repelition of the act, good or bad.

"Here," said the speaker, "Is where the python egg is hatched." A life size rep- guest of the Carey hotel. resentation of Sandow was thrown upon the canvas to show the result of habit upon the body. Views of the brain, its action and change, its surface and size, Its modification by thought, etc., were

MISS COYLE'S TESTIMONY

Striker-Killers.

Puts the Swaggering Deputies in a Bad Light. Both the method and results when

> Wilkesbarre, Pa., Feb. 4.-The trial of Shoriff Martin and his deputies, jointly charged with the murder of the striking miners at Latimer on September II, was continued this morning. The court room was crowded, notwithstanding Judge Windward's orders that no one should be allowed to enter after the seats had been filled. The deputies semed to realize the position in which they were placed and paid the closest attention to the testimony of the commonwealth's witnesses. These witnesses were brought into court only as they were required to testify. Many of them bore reminders of the Lattimer shooting in the shape of ghastly wounds, missing legs, arms, etc. One man with eight buckshot wounds in the back, who is just recovering sufficient strength to enable him to move, was present.

GUSCOTT RECALLED. Charles Guscott, the Lattimer school teacher who told such a thrilling story yesterday afternoon, was recalled this morning. He was chiefly occupied in pointing out those of the deputies he remembered having seen at Lattimer just tion at Mobile, Ala., in February. previous to the shooting. After this Guscott pointed out by maps and photographs of the scene of the shooting just where the deputies stood, where the strikers halted, where the sheriff met the strikers and where the dead and wounded had

It was shown by this witness on cross examination that the strikers were in Lattimer on the Tuesday previous to the shooting and that there was some rioting.

THE PHYSICIAN TESTIFIES. Dr. H. M. Kellar, who viewed the re-Western Union, is off duty today taking mains of the strikers and attended many of the wounded, testified that a number of the strikers were shot in the back, bearing out the allegation that the deputies fired when the men were running

Dr. Kellar mentioned in order each of the thirty-nine patients taken to the Ha- there is no foundation for the report of a zelton hospital and described their wounds been shot in all positions, some while fronting the strikers, some while running away, and some while lying on the ground in the hope of escaping injury.

Forty-six wounds on thirty-nine men were inflicted by 44-calibre Winchester bullets, and only a small majority of them were caused by buckshot.

Of the thirty-nine patients seven had died in the hospital, two are still there and recovering slowly, and thirty have been discharged, all of them cured except one, who is now in a Philadelphia hospi-

links. They play there all winter; so Rev. S. E. Stafflet, pastor of the Emannel Reformed church of Hazelton, testified that the strikers were orderly and apparently unarmed.

MISS COYLE'S STORY. Miss Grace Coyle, Principal Guscott's assistant at the Lattimer school, proved to be the most important witness of the day. She said she was standing on the whom he had been living. ers hotel, where his meals are served, and porch of the school house and saw the refuses to see anybody except a few per- deputies line up along the roadside. Then she did not see any of them attack him. tempted to kill himself before. Some of them cried:

"Go nhead," and a few strikers pushed past the sheriff. At that moment a shot Burgess' millinery store, Walker's hotel, prominent attorney, was closeted with was fired, then came another, and in an instant a volley. latter's wife living in this city, but what

"I saw men fall," said Miss Coyle. "Some of them ran toward the school house, and when they got half way they fell. I do not know whether they were shot just before they fell, or f they were wounded by the volley and ran so far before their strength failed them. hooting continued for about two minutes

and after the first volley it was scattered. "I helped many of the wounded strikers who fell near the school house and did not see any weapons on any of them, While I was helping them, a deputy named Ross laughed at me as he walked about smoking a cigar. I said: 'You ought to go to Cuba.' Another deputy, Clark, laughed, and I said to him: 'Do you think you have done a glorious deed today?" I called two more of them

DEFENSE SCORES A POINT. Miss Coyle made a good witness for the commonwealth, but in the cross examination she also made a good witness for the piles: "I take pleasure in stating that with the resignation of Cashier Quinlan of defense. The defense will try to prove I was so afflicted with piles that for three the Chemical National bank of New York, that the people of Lattimer were very much afraid of the strikers and became much alarmed when they heard they were remedy for piles, the Pyramid Pile Cure; county. This property consists of the school, had denied that his scholars were I purchased from my druggist three 20 North Poudre canal and about 16:00 acres frightened, but he could not explain very clearly why they had bolted out of the from other places.
